

Five Days of Impact

Leadership Roundtables • By Invitation Only

ANVI INDIA × ANVI GLOBAL

Real Assets • Digital Trust • Human Agency • New Financial Rails

DAY 1

MONDAY, JANUARY 19

Rebuilding Trust • Digital Public Goods • Inclusive Growth

Round Table I — ANVI INDIA

19 Jan | 10:00 – 10:45

Mark Interest

India's Leapfrog Moment

Designing the World's First AI Bank, and the World's First Alternate Financial Rail for a Billion People.

What if inclusion was not about entering the old banking system, but about building a new one?

Core thesis

- ANVI India is not just a bank, it is an AI-native financial operating system
 - A parallel rail to legacy banking, correspondent networks, and fee-extractive intermediaries
 - Built on India's DPI, but not dependent on legacy global pipes
-

Round Table II — ANVI GLOBAL

19 Jan | 11:00 – 11:45

Mark Interest

The Future of Trade Is Tokenized

Re-architecting Global Commerce for a Fragmented World.

Global trade is broken, not because of demand, but because of architecture. Tokenization, AI and DeFi are not experiments. They are becoming infrastructure.

Core thesis

- \$2.5T global trade finance gap
 - Tokenized commodities & fractional ownership
 - AI-driven DeFi liquidity pools
 - South-South trade acceleration
-

Round Table III — ANVI INDIA

19 Jan | 12:00 – 12:45

Mark Interest

The Last Mile First

How India Can Amplify Local & Regional GDP Without a Single Branch.

GDP does not grow from capital, it grows from participation.

Core thesis

- How India Can Bank 1.1 Billion People Without Building a Single Branch
 - Every traditional banking system failed the last mile
 - The question is no longer can we reach the last mile, but what happens when the last mile becomes the first mile of growth?
 - Digitizing the cash economy → measurable GDP lift
 - Peer-to-peer commerce replacing extractive middle layers
 - Local networks compounding into regional economic engines
-

DAY 2

TUESDAY, JANUARY 20

Universal Credit • AI Governance • Economic Resilience

Round Table I — ANVI INDIA

20 Jan | 10:00 – 10:45

Mark Interest

AI Underwriting for a Billion

From Invisible Credit to Macro-Stable, Tradeable Loan Books.

What if the poorest borrowers produced the highest-quality assets?

Core thesis

- AI allows to price risk invisibly, fairly, and at population scale, transforming credit from a privilege into a utility
 - Millions of AI underwritten micro-loans aggregated into institutional-grade assets
 - Behavioral & psychometric underwriting
-

Round Table II — ANVI INDIA

20 Jan | 11:00 – 11:45

Mark Interest

Monetising the Cash Economy

How Float Becomes a New Financial Rail, Not a Hidden Tax.

Fees extract value. Float compounds it.

Core thesis

- Zero-fee model increases participation
 - Float becomes shared economic infrastructure
 - Banks, merchants, consumers aligned , not adversarial
-

Round Table III — ANVI INDIA

20 Jan | 12:00 – 12:45

Mark Interest

From Scarcity to Abundance

Peer-to-Peer Capital, Asset Ownership & Local Wealth Creation.

What if we enable the marginalised with scarce resources to leapfrog into an Abundance Mindset

Core thesis

- Savings + responsible credit habits
 - Fractional access to real assets
 - Lending and commerce between citizens, not just institutions
-

DAY 3

WEDNESDAY, JANUARY 21

Global Trade • Capital Market Innovation • Energy Transition

Round Table I — ANVI GLOBAL

21 Jan | 10:00 – 10:45

Mark Interest

DeFi Meets Trade Finance

Replacing SWIFT-based Banking with Liquidity Networks

Core thesis

- Why correspondent banking and SWIFT-based settlement structurally exclude SMEs and emerging markets
 - Liquidity-first trade finance vs permission-based banking models. AI-driven risk pricing at transaction level
 - Decentralized liquidity pools complementing regulated finance
 - Programmable compliance for regulators and central banks
-

Round Table II — ANVI GLOBAL

21 Jan | 11:00 – 11:45

Mark Interest

Securitizing Commodity Credit

From Physical Flows to Macro-Stabilizing Financial Assets

Core thesis

- Commodity-backed credit has structurally lower LGD
 - Aggregation into institutional-grade pools
 - Multi-tranche structures for pensions, insurers, sovereign funds
 - Hedging basis, location, timing risks
 - Stabilizing producer economies
-

Round Table III — ANVI GLOBAL

21 Jan | 12:00 – 12:45

Mark Interest

Tokenizing the Real World

Commodities, Carbon, Inventory, Assets That Move the Planet

Core thesis

- Legal enforceability of tokenized claims
 - Inventory and supply-chain tokens
 - Carbon and ESG tokens as auditable assets
 - Smart contracts bridging physical verification and digital trust
 - Transparency over speculation
-

DAY 4

THURSDAY, JANUARY 22

Digital Trust • SMEs • Global South

Round Table I — ANVI INDIA

22 Jan | 10:00 – 10:45

Mark Interest

Retailers as the New Bank Branches

350,000 Corner-stores as India's Financial Nervous System

Core thesis

- Corner stores as trust anchors
 - Zero-MDR merchant adoption
 - SME liquidity and local supply chains
 - Hyper-local GDP amplification
-

Round Table II — ANVI GLOBAL

22 Jan | 11:00 – 11:45

Mark Interest

The Trade Finance Technology Stack

Smart Contracts, Oracles & the End of Paper Trust

Core thesis

- Digitized agreements replacing LCs
 - Oracles feeding real-world data
 - Role of banks, law firms, custodians, insurers
 - Interoperability between DeFi and regulated institutions
 - Cybersecurity by design
-

Round Table III — ANVI INDIA

22 Jan | 12:00 – 12:45

Mark Interest

True Inclusion Through AI, DeFi & New Rails

Instant, Compliant, Cross-Border Commerce for the Global South

Core thesis

- Cross-border commerce without correspondent banking
 - Built-in KYC, AML, auditability
 - SMEs and gig workers as global participants
 - Digital identity as economic passports
 - Inclusion without regulatory compromise
-

DAY 5

FRIDAY, JANUARY 23

Future of Capitalism • Risk • Systemic Resilience

Round Table I — ANVI INDIA

23 Jan | 10:00 – 10:45

Mark Interest

Beyond a Bank

From Remittance Rail to National Digital Economic Platform

Core thesis

- Evolution to full economic OS
 - Zero-fee ecosystem funded by float incentivised by value added services
 - Super-app as citizen infrastructure, not consumer exploitation
 - Unified and virtuous loop: credit, savings, insurance, commerce
 - Long-term productivity gains
-

Round Table II — ANVI INDIA × ANVI GLOBAL

23 Jan | 11:00 – 11:45

Mark Interest

Trust by Design

Risk, Cybersecurity, ESG & Governance Across New Financial Rails

Core thesis

- Proactive, AI-driven risk management across chains
 - Cybersecurity and privacy embedded at protocol level
 - Unified risk frameworks across traditional and tokenized markets
 - ESG assets as measurable, tradable classes
 - Regulatory harmonization across jurisdictions
-

Closing Salon

23 Jan | 12:00 – 12:45

Mark Interest

A New Economic Operating System

Peer-to-Peer Capital • Alternate Rails • Resilient Growth

Core thesis

- Why emerging markets will define the next financial architecture
- Peer-to-peer capital as complement to institutions
- Tokenization as access, not abstraction
- ANVI India → GDP amplification through participation
- • ANVI Global → stable commodity and energy transition finance
